PROFESSIONAL SUMMARY

Computer Engineering graduate with hands-on IT internship experience in technical troubleshooting, hardware and software support, and IT operations. Knowledgeable in programming languages, database fundamentals, and web technologies, with a strong foundation in problem-solving, documentation, and data management. Adaptable and detail-oriented, with a strong willingness to learn and apply technical skills in software development and enterprise IT environments.

WORK EXPERIENCE

Nestlé Philippines **June 2025 — December 2025**
Information Technology Intern *City of Meycauayan, Bulacan*

- Supported the company-wide migration of over 1,000 laptop units to Windows 11 by assisting with operating system upgrades and device configuration, ensuring improved system compatibility and operational readiness.
- Resolved hardware and software issues through systematic computer troubleshooting and technical assistance, helping maintain efficient IT operations and minimize user disruptions.
- Configured computer hardware and installed software applications to prepare devices for employee use, ensuring equipment readiness and smoother onboarding.
- Maintained accurate IT inventory records and compliance documentation through data entry and record management, improving information accuracy and asset tracking.
- Collaborated with senior IT personnel in daily technical operations and support activities, contributing to efficient IT service delivery and continuous improvement of technical processes.

EDUCATION

Bulacan State University **2022 — 2026**
Bachelor of Science in Computer Engineering *City of Malolos, Bulacan*
